Assessment of Interest Rate Derivatives:

- Limited number of Interest Rate Derivative transactions were executed by the Bank.
- All the Interest rate derivatives were executed OTC with SI counterparties

In summary:

1. The Bank has embedded a “Best Execution Policy”. The execution of client orders was undertaken in line with this Policy, as assessed below:
 - The primary factors considered in executing client orders on execution venues for both retail and professional clients are price, speed of execution and availability of credit lines
 - The Bank mainly dealt with Systematic Internaliser (SI) counterparties, either on venue or Over-the-counter (OTC), and obtained the best price and speed of execution on a best effort basis
 - The Bank provides quotes to client upon request and in turn executes it in the market in line with its Best Execution Policy
2. **Close Links:** The Bank has also dealt with ICICI Bank Limited, a 100% shareholder of the Bank, as a counterparty. These transactions have been undertaken at arm’s length. ICICI Bank Limited is a market maker for currency and interest rate derivatives and has relationship with a large number of counterparties. This enables the Bank in ensuring best execution of client orders
3. The Bank undertook only Currency Derivative and Interest Rate Derivative transactions with clients during 2019
4. The Bank did not undertake any Securities Financing Transactions (SFTs) for clients
5. **Specific arrangements:** The Banks decision to execute orders on a particular venue is determined by whether execution on such venues allows the Bank to satisfy its best execution obligations and is not influenced by any such fee structures or volume discounts
